

Vibe 12

Vibe 12 is portable and very powerful because of its Intel i5 processor. Thanks to the larger 12-inch screen with higher resolution, cells are more visible and are a bigger target to access. Besides, there are 2 built-in ports for scanning so you can directly access with one or two switches. Also, the integrated infrared module makes environment control possible.

Technical specifications

Operating system	Windows 10 Pro (64-bit)
Software	Mind Express
Processor	Intel® Core™ i5-1035G4
Graphics	Intel® Iris Plus Graphics
